Subject Index to Volume 21

Aboriginal children, Australian, nutrition and infections in, 921
Aborigine, adult T-cell leukaemia lymphoma in an, 739
Actinomycosis, pulmonary, complicated by effusive constrictive pericarditis, 879
Adenocarcinoma, pancreatic, responding to cisplatin based cytotoxic chemotherapy (Letter), 780
AIDS, invasive aspergillosis in, 747
Alpha 1-antitrypsin deficiency and pancreatitis in a juvenile, 345
Alpha thalassaemia and hereditary spherocytosis, concurrence of, 485
Alpha-2b interferon, recombinant, in patients with malignant carcinoid tumour, 875
Alpha-interferon, relief of itch associated with myeloproliferative disease by (Letter), 81
Amyloid arthropathy of the shoulder, spontaneous haemarthrosis in, 343
Anaemia, severe aplastic, cyclosporin associated remission (Letter), 292
Angioplasty, coronary, emergency coronary artery bypass surgery following – favourable medium term outcome after eight years' experience, 211
Anti-GBM antibody-mediated disease, human, inability to detect circulating anti-idiotypic antibodies in, using a splenic PFC assay, 36
Anti-gliadin antibodies in serum, enzyme-linked immunosorbent assay to detect: a reliable screening test for coeliac disease, 723
Anti-idiotypic antibodies, circulating, in human anti-GBM antibody-mediated disease, inability to detect, using a splenic PFC assay, 36
Antibodies, antiphospholipid, 463
Antibodies, circulating anti-idiotypic, in human anti-GBM antibody-mediated disease, inability to detect, using a splenic PFC assay, 36
Antibodies, anti-gliadin, in serum, enzyme-linked immunosorbent assay to detect: a reliable screening test for coeliac disease, 723
Antiphospholipid antibodies, 463
Antithrombin III deficiency, cerebral venous thrombosis associated with, 772
Antithymocyte-globulin and corticosteroid therapy, response to: transfusion associated graft-versus-host disease after cardiac surgery, 43
Apnoea, sleep: contribution to the road toll (Editorial), 833
Apnoea, obstructive sleep, differences in the symptoms of men and women with, 863
Apnoea, obstructive sleep, effects of nasal continuous positive airway pressure on blood pressure and body mass index in, 917
Apnoea, obstructive sleep, long-term nasal CPAP does not ameliorate, 235
Apo A-I and coronary artery disease, high density lipoproteins, genetic polymorphism for, 330
Apomorphine injection, intermittent subcutaneous, treatment for Parkinsonian motor oscillations, 314
Arrhythmogenic right ventricular dysplasia, 451
Arteritis, giant cell, associated with pericarditis and large vessel disease, 353
Arteritis, giant cell, in two Chinese patients, 751
Arteritis, giant cell, ophthalmoplegia and (Letter), 930
Artery, left main coronary, spontaneous dissection of the: case report and review of the literature, 891
Arthropathy, amyloid, of the shoulder, spontaneous haemarthrosis in, 343
Arthur E. Mills Oration, the – self-regulation and the professions: continuing legal education and regulating the regulators, 774
Aspergillosis, invasive, in AIDS, 747
Aspirin concurrently administered with ranitidine does not delay healing of duodenal ulcer (Letter), 80
Aspirin, effects of, on the healing of duodenal ulcer, ethical aspects of a study of (Letter), 80
Asterixis with carbamazepine toxicity, complete external ophthalmoplegia and, 886
Asthma Campaign, the National – a measurable public health exercise (Editorial), 4
Asthma deaths: where are we now? (Editorial), 678
Asthma, risk factors for death in patients admitted to hospital with: a follow-up study, 681
Asthma mortality and inhaled beta agonist therapy, 753
Atrioventricular junction ablation, direct-current shock, ventricular dysfunction following, 25
Autoantibodies in systemic vasculitis, 433
Azathioprine and cyclosporin in refractory rheumatoid arthritis, randomised double blind trial of, 844

Barmah Forest polyarthritis, acute, 737
Beta agonist, inhaled, therapy, asthma mortality and, 753
Biochemical and molecular investigation of mitochondrial disease: an illustrative case showing the value of a multifaceted approach, 837
Bipolaris and *Curvularia*, allergic bronchopulmonary fungal disease caused by, 871
Blood pressure and body mass index in obstructive sleep apnoea, effects of nasal continuous positive airway pressure on, 917
Bone marrow transplantation, allogeneic, GM-CSF after: accelerated recovery of neutrophils, monocytes and lymphocytes, 686
Bone marrow transplantation, allogeneic, from histocompatible sibling donors, chronic myeloid leukaemia treated by – an invariably fatal malignancy rendered highly curable, 408
Bromocriptine therapy, retroperitoneal fibrosis, skin and pleuropulmonary changes associated with (Letter), 82
Bronchospasm, frusemide antagonises exercise-induced but not histamine-induced, 7

Calcium and osteoporosis, 275
Calcium, osteoporosis and (Letter), 488
Cancer prevention in Australia, the potential for, 764
Cancer, colorectal, what is the risk of developing? – ulcerative colitis, 71
Carbamazepine toxicity, complete external ophthalmoplegia and asterixis with, 886
Carbidopa/levodopa, controlled release, (Sinemet CR4), in Parkinson's disease – an open evaluation of efficacy and safety, 397
Carcinoid tumour, malignant, recombinant alpha-2b interferon in patients with, 875
Carcinoma, transitional cell, of the renal pelvis, complete response of a, to leucovorin/5 fluorouracil chemotherapy, 244
Cardiac papillary fibroelastomas, multiple, and rheumatic heart disease, 744
Cardiac surgery, transfusion associated graft-versus-host disease after: response to antithymocyte-globulin and corticosteroid therapy, 43
Cardiac surgery, painful sciatic neuropathy following, 732
'Cardiomyopathy', permanent junctional reciprocating tachycardia misdiagnosed as, 239
Cardiovascular and sociological risk factors at entry: Dubbo study of the elderly, 701
Castleman's disease, POEMS syndrome and osteosclerotic myeloma: a case report, 454

Cerebral infarction, progressive: Kohlmeier-Degos disease, a multisystem vasculopathy with, 49
Cerebral venous thrombosis associated with antithrombin III deficiency, 772
Cerebral artery infarction, right anterior, post-hemiplegic dystonia following (Letter), 381
Cerebrospinal fluid, monoclonal immunoglobulin bands in the, 227
Cerebrovascular accident, left, inability to cough voluntarily following a, 78
Chemotherapy, cytotoxic, cisplatin based, pancreatic adenocarcinoma responding to (Letter), 780
Chemotherapy, intensive, an unusual cutaneous lymphoma with B and T cell characteristics showing gallium-67 positive benign thymic hyperplasia following, 447
Chinese patients, two, giant cell arteritis in, 751
Chinese, pathology of fatal acute myocardial infarction in the (Letter), 82
Cholesterol, screening and intervention for (Editorial), 393
Cholesterol reduction, oat bran and: evidence against specific effect, 422
Cholesterol emboli, renal failure due to, 418
Chorioretinitis as a possible very early manifestation of subacute sclerosing panencephalitis, 350
Chronic bronchitis, acute exacerbations of, a controlled trial of a killed *Haemophilus influenzae* vaccine for prevention of, 427
Chronic myeloid leukaemia treated by allogeneic bone marrow transplantation from histocompatible sibling donors – an invariably fatal malignancy rendered highly curable, 408
Cisplatin based cytotoxic chemotherapy, pancreatic adenocarcinoma responding to (Letter), 780
Coeliac plexus blockade, more complications of (Letter), 782
Coeliac disease, a reliable screening test for: enzyme-linked immunosorbent assay to detect anti-gliadin antibodies in serum, 723
Coeliac disease and epidermolysis bullosa acquisita, circulating anti-glomerular basement membrane antibodies in, 867
Coeliac plexus block – diarrhoea, an unrecognised hazard of, 47
Colonoscopy, a randomised blinded study in colonic lavage for, 769
Colorectal cancer, what is the risk of developing? – ulcerative colitis, 71
Constipation, severe, as the presenting complaint of phaeochromocytoma, 888
Continuous positive airway pressure (CPAP), long-term nasal, does not ameliorate obstructive sleep apnoea, 235
Continuous positive airway pressure (CPAP), nasal, problems with (Letter), 291
Coronary care unit, screening for hypercholesterolaemia in a (Letter), 931
Coronary heart disease, high density lipoproteins and (Editorial), 299
Coronary artery disease and apo A-I, high density lipoproteins, genetic polymorphism for, 330
Coronary care unit, physician response to screening for hypercholesterolaemia in, 401
Coronary angioplasty, emergency coronary artery bypass surgery following – favourable medium term outcome after eight years' experience, 211
Coronary artery bypass surgery, emergency, following coronary angioplasty – favourable medium term outcome after eight years' experience, 211
Corticosteroid and antithymocyte-globulin therapy, response to: transfusion associated graft-versus-host disease after cardiac surgery, 43
Cotrimoxazole, *Pneumocystis carinii* pneumonia – upper lobe recurrence following (Letter), 380
Cough, chronic, an unusual case of (Letter), 780
Cough voluntarily, inability to, following a left cerebrovascular accident, 78
CPAP, long-term nasal, does not ameliorate obstructive sleep apnoea, 235
CPAP machines, nasal, problems with (Letter), 291
Cronkhite-Canada syndrome associated with peripheral neuropathy (Letter), 379
Cryofribrinogenaemia: a case report, 444
Crystals, reproducibility of synovial fluid examination for, 710
Curvularia and *Bipolaris*, allergic bronchopulmonary fungal disease caused by, 871
Cutaneous lymphoma, an unusual, with B and T cell characteristics showing gallium-67 positive benign thymic hyperplasia following intensive chemotherapy, 447
Cyclosporin A and mefenamic acid in a renal transplant patient (Letter), 784
Cyclosporin associated remission in severe aplastic anaemia (Letter), 292
Cyclosporin and azathioprine in refractory rheumatoid arthritis, randomised double blind trial of, 844
Cyclosporin and methotrexate versus cyclosporin, methotrexate and prednisolone for prevention of graft-versus-host disease after HLA-identical sibling marrow transplantation for haematological malignancy, a prospective randomised trial of, 850
Cytochromes P450, human hepatic, role of, in drug metabolism and toxicity, 356
Cytotoxic chemotherapy, cisplatin based, pancreatic adenocarcinoma responding to (Letter), 780

Dantrolene, intravenous, fulminant metoclopramide induced neuroleptic malignant syndrome rapidly responsive to, 742
Diabetes mellitus, Type 2 (non-insulin dependent), metformin increases insulin sensitivity and basal glucose clearance in, 714
Diabetes mellitus and pancreatitis, pentamidine induced, survival from, 341
Diabetes mellitus and optic disc oedema: a case report with review, 248
Diabetic end stage renal failure – the Wellington experience 1975-1988, 29
Diarrhoea – an unrecognised hazard of coeliac plexus block, 47
Diclofenac hepatitis, 251
Drug metabolism and toxicity, role of human hepatic cytochromes P450 in, 356
Drug, multi-, resistant tuberculosis in migrants, 457
Duodenal ulcer, ethical aspects of a study of the effects of aspirin on the healing of (Letter), 80
Duodenal ulcer, aspirin concurrently administered with ranitidine does not delay healing of (Letter), 80
Dystonia, post-hemiplegic, following right anterior cerebral artery infarction (Letter), 381

Elderly, Dubbo study of the: sociological and cardiovascular risk factors at entry, 701
Elderly patients, acutely ill, a defined group of, managed in a geriatric assessment unit or a general medical unit, a randomised study of outcomes in, 230
Empyema, salmonella, in a patient with lymphoma, 246
Endovascular infection, *Salmonella hadar*, cure of, with medical therapy, 442
Eosinophilia and pulmonary infiltrates associated with sulphasalazine administration, 348
Epidemiological characteristics of Legionella infection in South Australia: implications for disease control, 65
Epidermolysis bullosa acquisita, circulating anti-glomerular basement membrane antibodies in coeliac disease and, 867
Epilepsy, temporal lobe, sino-atrial arrest due to, 62
Eruption, extensive fixed, to mefenamic acid (Letter), 290
Erythropoietin, low dose, in maintenance haemodialysis: improvement in quality of life and reduction in true cost of haemodialysis, 693

Ethical aspects of a study of the effects of aspirin on the healing of duodenal ulcer (Letter), 80

Fibrosis, retroperitoneal, skin and pleuropulmonary changes associated with bromocriptine therapy (Letter), 82
5-fluorouracil/leucovorin chemotherapy, complete response of a transitional cell carcinoma of the renal pelvis to, 244
Frusemide antagonises exercise-induced but not histamine-induced bronchospasm, 7
Fungal disease, allergic bronchopulmonary, caused by *Bipolaris* and *Curvularia*, 871

Gallium scanning, the place of, in Hodgkin's disease is established (Letter), 489
Gallium-67 positive benign thymic hyperplasia following intensive chemotherapy, an unusual cutaneous lymphoma with B and T cell characteristics showing, 447
Gene, T cell receptor and immunoglobulin, rearrangement analysis as a laboratory aid in the diagnosis of human malignant lymphoproliferative diseases, 307
Genetic locus, a single, for adult polycystic kidney disease in five Australian families of southern European origin, 720
Genetic polymorphism, high density lipoproteins for apo A-I and coronary artery disease, 330
Geriatric assessment unit or general medical unit, a randomised study of outcomes in a defined group of acutely ill elderly patients managed in a, 230
Giant cell arteritis, status epilepticus with (Letter), 931
Giant cell arteritis in two Chinese patients, 751
Giant cell arteritis associated with pericarditis and large vessel disease, 353
GM-CSF after allogeneic bone marrow transplantation: accelerated recovery of neutrophils, monocytes and lymphocytes, 686
Graft-versus-host disease after HLA-identical sibling marrow transplantation for haematological malignancy, a prospective randomised trial of cyclosporin and methotrexate versus cyclosporin, methotrexate and prednisolone for prevention of, 850
Graft-versus-host disease, transfusion associated, after cardiac surgery: response to antithymocyte-globulin and corticosteroid therapy, 43

Haemangiopericytoma, meningeal, hepatic metastasis from a, 884
Haemarthrosis, spontaneous, in amyloid arthropathy of the shoulder, 343
Haematological malignancy, HLA-identical sibling marrow transplantation for, a prospective randomised trial of cyclosporin and methotrexate versus cyclosporin, methotrexate and prednisolone for prevention of graft-versus-host disease after, 850
Haemodialysis patients, hepatitis C virus infection in, 22
Haemodialysis, maintenance, low dose erythropoietin in: improvement in quality of life and reduction in true cost of haemodialysis, 693
Haemophilus influenzae, a killed, vaccine for prevention of acute exacerbations of chronic bronchitis, a controlled trial of, 427
Heparin dependent thrombocytopenia and thrombosis, the use of a low molecular weight heparinoid (Org 10172) for extracorporeal procedures in patients with, 52
Heparinoid, low molecular weight (Org 10172), the use of a, for extracorporeal procedures in patients with heparin dependent thrombocytopenia and thrombosis, 52
Hepatic metastasis from a meningeal haemangiopericytoma, 884
Hepatic cytochromes P450, human, role of, in drug metabolism and toxicity, 356
Hepatitis C virus infection in haemodialysis patients, 22
Hepatitis C, chronic active, can the response to interferon treatment be predicted in patients with?, 387
Hepatitis, ischaemic . . . or hypoxic (Letter), 291
Hepatitis, diclofenac, 251
High density lipoproteins and coronary heart disease (Editorial), 299
High density lipoproteins, genetic polymorphism for apo A-I and coronary artery disease, 330
Histamine-induced bronchospasm, frusemide antagonises exercise-induced but not, 7
HIV positive patient, first and second complete remission in a, following remission induction therapy for acute non-lymphoblastic leukaemia, 55
Hodgkin's disease, the place of gallium scanning is established in (Letter), 489
Hodgkin's disease, infradiaphragmatic, long term follow-up of a rare presentation, 16
Hypercalcaemia, lithium and (Editorial), 675
Hypercholesterolaemia in a coronary care unit, physician response to screening for, 401
Hypercholesterolaemia in a coronary care unit, screening for (Letter), 931
Hypertension, managing (Letter), 290
Hypertension, pregnancy-induced: pathogenesis and management, 257
Hypoxic . . . or ischaemic hepatitis (Letter), 291

'Informatics, medical'– a bridge between the clinician and the computer scientist (Letter), 781
Immune thrombocytopenia, targeted-immunosuppression with vincristine infusion in the treatment of, 405
Immunoglobulin and T cell receptor gene rearrangement analysis as a laboratory aid in the diagnosis of human malignant lymphoproliferative diseases, 307
Immunoglobulin bands, monoclonal, in the cerebrospinal fluid, 227
Immunosuppression, targeted-, with vincristine infusion in the treatment of immune thrombocytopenia, 405
Infarction, progressive cerebral: Kohlmeier-Degos disease, a multisystem vasculopathy with, 49
Infarction, cerebral artery, right anterior, post-hemiplegic dystonia following (Letter), 381
Infections in Australian Aboriginal children, nutrition and, 921
Informatics, medical – an Australian perspective, 363
Infradiaphragmatic Hodgkin's disease, long term follow-up of a rare presentation, 16
Insulin sensitivity and basal glucose clearance in Type 2 (non-insulin dependent) diabetes mellitus, metformin increases, 714
Interferon treatment, can the response be predicted in patients with chronic active hepatitis C?, 387
Interferon, recombinant alpha-2b, in patients with malignant carcinoid tumour, 875
Interventional radiology – a review 902
Intoxication, accidental or deliberate, 'superwarfarins' as agents of (Letter), 491
Ischaemic . . . or hypoxic hepatitis (Letter), 291

Kidney disease, adult polycystic, a single genetic locus for, in five Australian families of southern European origin, 720
Kohlmeier-Degos disease: a multisystem vasculopathy with progressive cerebral infarction, 49

Lambie-Dew Oration, the, 281
Laser, Nd-Yag, endoscopic therapy, successful treatment of two patients with gastric antral vascular ectasia 'watermelon stomach', 439

Legal education, continuing, and regulating the regulators: self-regulation and the professions. The Arthur E. Mills Oration, 774
Legionella infection in South Australia, epidemiological characteristics of: implications for disease control, 65
Leiomyosarcoma, primary, of the heart: a rare cause of obstruction of the left ventricular outflow tract, 879
Leucovorin/5-fluorouracil chemotherapy, complete response of a transitional cell carcinoma of the renal pelvis to, 244
Leukaemia, chronic myeloid, treated by allogeneic bone marrow transplantation from histocompatible sibling donors – an invariably fatal malignancy rendered highly curable, 408
Leukaemia, acute non-lymphoblastic, first and second complete remissions in a HIV positive patient following remission therapy for, 55
Leukaemia lymphoma, adult T-cell, in an Aborigine, 739
Levodopa/carbidopa, controlled release, (Sinemet CR4), in Parkinson's disease – an open evaluation of efficacy and safety, 397
Lipoproteins, high density, and coronary heart disease (Editorial), 299
Lipoproteins, high density, genetic polymorphism for apo A-I and coronary artery disease, 330
Lithium and hypercalcaemia (Editorial), 675
Low molecular weight heparinoid (Org 10172), the use of a, for extracorporeal procedures in patients with heparin dependent thrombocytopenia and thrombosis, 52
Lymphoma, an unusual cutaneous, with B and T cell characteristics showing gallium-67 positive benign thymic hyperplasia following intensive chemotherapy, 447
Lymphoma, salmonella empyema in a patient with, 246
Lymphoproliferative diseases, human malignant, T cell receptor and immunoglobulin gene rearrangement analysis as a laboratory aid in the diagnosis of, 307

Madopar, standard, and controlled release Madopar in Parkinson's disease, a comparison of, 11
Marrow transplantation, HLA-identical sibling, for haematological malignancy, a prospective randomised trial of cyclosporin and methotrexate versus cyclosporin, methotrexate and prednisolone for prevention of graft-versus-host disease after, 850
Mefenamic acid and cyclosporin A in a renal transplant patient (Letter), 784
Mefenamic acid, extensive fixed eruption to (Letter), 290
Meningeal haemangiopericytoma, hepatic metastasis from a, 884
Mesothelioma, malignant pleural, miliary spread of, without a clinically identifiable pleural tumour, 460
Metastasis, hepatic, from a meningeal haemangiopericytoma, 884
Metformin increases insulin sensitivity and basal glucose clearance in Type 2 (non-insulin dependent) diabetes mellitus, 714
Methotrexate and cyclosporin versus cyclosporin, methotrexate and prednisolone for prevention of graft-versus-host disease after HLA-identical sibling marrow transplantation for haematological malignancy, a prospective randomised trial of, 850
Metoclopramide induced neuroleptic malignant syndrome, fulminant, rapidly responsive to intravenous dantrolene, 742
Miconazole oral gel, potentiation of warfarin action by (Letter), 928
Migrants, multi-drug resistant tuberculosis in, 457
Mitochondrial disease, biochemical and molecular investigation of: an illustrative case showing the value of a multifaceted approach, 837
Molecular and biochemical investigation of mitochondrial disease: an illustrative case showing the value of a multifaceted approach, 837
Mortality, vascular, in New Zealand, variation in (Letter), 487
Motor oscillations, Parkinsonian, intermittent subcutaneous apomorphine injection treatment for, 314
Musculo-skeletal examination, the: a neglected clinical skill, 303
Mydriasis, accidental, due to Prantal powder® (Letter), 929
Myeloproliferative disease, relief of itch associated with, by alpha-interferon (Letter), 81
Myocardial infarction, acute, the early diagnosis of, 335
Myocardial infarction, fatal acute, in the Chinese, pathology of (Letter), 82

Nasal CPAP machines, problems with (Letter), 291
National Asthma Campaign, the – a measurable public health exercise (Editorial), 4
Nd-Yag laser therapy, endoscopic, successful treatment of two patients with gastric antral vascular ectasia 'watermelon stomach' using, 439
Necrobacillosis – primary anaerobic septicaemia (Letter), 381
Nephrotic syndrome, renal sodium retention in, 893
Neural transplantation for Parkinson's disease: a critical appraisal, 477
Neuroleptic malignant syndrome, fulminant metoclopramide induced, rapidly responsive to intravenous dantrolene, 742
Neuropathy, peripheral, phenelzine associated – clinical and electrophysiologic findings, 339
Neuropathy, peripheral, Cronkhite-Canada syndrome associated with (Letter), 379
Neuropathy, painful sciatic, following cardiac surgery, 732
New Zealand, variation in vascular mortality in (Letter), 487
Non-seminomatous germ cell tumours of the testis: game and set but not match (Editorial), 835
Nutrition and infections in Australian Aboriginal children, 921

Oat bran and cholesterol reduction: evidence against specific effect, 422
Obstruction of the left ventricular outflow tract, primary leiomyosarcoma of the heart: a rare cause of, 881
Oesophageal intramural pseudodiverticulosis – always benign?, 58
One swallow doth not summer make (Letter), 783
Ophthalmoplegia, complete external, asterixis with carbamazepine toxicity, and, 886
Ophthalmoplegia, giant cell arteritis and (Letter), 930
Optic disc oedema and diabetes mellitus: a case report with review, 248
Osteoporosis and calcium, 275
Osteoporosis and calcium (Letter), 488
OsteoPPPorosis – Prevention, Prevention and Prevention (Editorial), 205
Osteosclerotic myeloma, POEMS syndrome and Castleman's disease: a case report, 454
Oxygen therapy, home: an audit of survival, 217

Pancreatic adenocarcinoma responding to cisplatin based cytotoxic chemotherapy (Letter), 780
Pancreatitis, acute, and rhabdomyolysis: a new association, 414
Pancreatitis and alpha 1-antitrypsin deficiency in a juvenile, 345
Pancreatitis and diabetes mellitus, pentamidine induced, survival from, 341
Panencephalitis, subacute sclerosing, chorioretinitis as a possible very early manifestation of, 350
Parkinson's disease, a comparison of standard Madopar and controlled release Madopar in, 11
Parkinson's disease, neural transplantation for: a critical appraisal, 477
Parkinson's disease, controlled release levodopa/carbidopa (Sinemet CR4) in – an open evaluation of efficacy and safety, 397
Parkinsonian motor oscillations, intermittent subcutaneous apomorphine injection treatment for, 314
Pentamidine induced pancreatitis and diabetes mellitus, survival from, 341

Pericarditis, effusive constrictive, pulmonary actinomycosis complicated by, 879
Pericarditis and large vessel disease, giant cell arteritis associated with, 353
Phaeochromocytoma, severe constipation as the presenting complaint of, 888
Phenelzine associated peripheral neuropathy – clinical and electrophysiologic findings, 339
Plaque-forming cell assay, splenic, inability to detect circulating anti-idiotypic antibodies in human anti-GBM antibody-mediated disease using a, 36
Pleuropulmonary and skin changes, retroperitoneal fibrosis associated with bromocriptine therapy (Letter), 82
Pneumocystis carinii pneumonia – upper lobe recurrence following cotrimoxazole (Letter), 380
Pneumonia, *Pneumocystis carinii* – upper lobe recurrence following cotrimoxazole (Letter), 380
POEMS syndrome, osteosclerotic myeloma and Castleman's disease: a case report, 454
Polyarthritis, acute Barmah Forest, 737
Prantal powder® , accidental mydriasis due to (Letter), 929
Prednisolone, cyclosporin and methotrexate versus methotrexate and cyclosporin for prevention of graft-versus-host disease after HLA-identical sibling marrow transplantation for haematological malignancy, a prospective randomised trial of, 850
Pregnancy-induced hypertension: pathogenesis and management, 257
Pseudodiverticulosis, oesophageal intramural – always benign?, 58
Public health exercise, a measurable – the National Asthma Campaign (Editorial), 4
Pulmonary actinomycosis complicated by effusive constrictive pericarditis, 879
Pulmonary infiltrates and eosinophilia associated with sulphasalazine administration, 348

Radiology, interventional – a review, 902
Ranitidine, concurrently administered with aspirin, does not delay healing of duodenal ulcer (Letter), 80
Recombinant alpha-2b interferon in patients with malignant carcinoid tumour, 875
Regulation, self-, and the professions: continuing legal education and regulating the regulators. The Arthur E. Mills Oration, 774
Remission induction therapy for acute non-lymphoblastic leukaemia, first and second complete remissions in a HIV patient following, 55
Renal failure, diabetic end stage – the Wellington experience 1975-1988, 29
Renal sodium retention in the nephrotic syndrome, 893
Renal pelvis, complete response of a transitional cell carcinoma of the, to leucovorin/5 fluorouracil chemotherapy, 244
Renal transplant patient, cyclosporin A and mefenamic acid in a (Letter), 784
Renal failure due to cholesterol emboli, 418
Respiratory disease, wheat dust-associated, in a farming community, 222
Rhabdomyolysis, acute pancreatitis and: a new association, 414
Rheumatic heart disease, multiple cardiac papillary fibroelastomas and, 744
Rheumatoid arthritis, refractory, a randomised double blind trial of cyclosporin and azathioprine in, 844
Road toll, sleep apnoea's contribution to the (Editorial), 833

Salmonella empyema in a patient with lymphoma, 246
Salmonella hadar endovascular infection, cure of, with medical therapy, 442
Sciatic neuropathy, painful, following cardiac surgery, 732
Septicaemia, primary anaerobic - necrobacillosis (Letter), 381
Sino-atrial arrest due to temporal lobe epilepsy, 62
Sleep apnoea, obstructive, long-term nasal CPAP does not ameliorate, 235
Sociological and cardiovascular risk factors at entry: Dubbo study of the elderly, 701
Sodium retention, renal, in the nephrotic syndrome, 893
South Australia, epidemiological characteristics of Legionella infection in: implications for disease control, 65
Southern European origin, five Australian families of, a single genetic locus for adult polycystic kidney disease in, 720
Spherocytosis, hereditary, and alpha thalassaemia, concurrence of, 485
Spontaneous dissection of the left main artery: case report and review of the literature, 891
Status epilepticus, giant cell arteritis with (Letter), 931
Subacute sclerosing panencephalitis, chorioretinitis as a possible very early manifestation of, 350
Sulphasalazine administration, pulmonary infiltrates and eosinophilia associated with, 348
'Superwarfarins' as agents of accidental or deliberate intoxication (Letter), 491
Synovial fluid examination for crystals, reproducibility of, 710

T and B cell characteristics, an unusual cutaneous lymphoma with, showing gallium-67 positive benign thymic hyperplasia following intensive chemotherapy, 447
T cell receptor and immunoglobulin gene rearrangement analysis as a laboratory aid in the diagnosis of human malignant lymphoproliferative diseases, 307
Tachycardia, permanent junctional reciprocating, misdiagnosed as 'cardiomyopathy', 239
Targeted-immunosuppression with vincristine infusion in the treatment of immune thrombocytopenia, 405
Temporal lobe epilepsy, sino-atrial arrest due to, 62
Testis, non-seminomatous germ cell tumours: game and set but not match (Editorial), 835
Testis, non-seminomatous germ cell tumours, single institutional experience with: local perspectives on a curable cancer, 857
Thalassaemia, alpha, and hereditary spherocytosis, concurrence of, 485
The way we live now (Editorial), 1
Thrombocytopenia, immune, targeted-immunosuppression with vincristine infusion in the treatment of, 405
Thrombocytopenia and thrombosis, heparin dependent, the use of a low molecular weight heparinoid (Org 10172) for extracorporeal procedures in patients with, 52
Thrombosis, cerebral venous, associated with antithrombin III deficiency, 772
Thrombosis and thrombocytopenia, heparin dependent, the use of a low molecular weight heparinoid (Org 10172) for extracorporeal procedures in patients with, 52
Thymic hyperplasia, gallium-67 positive benign, following intensive chemotherapy, an unusual cutaneous lymphoma with B and T cell characteristics showing, 447
Transfusion associated graft-versus-host disease after cardiac surgery: response to antithymocyte-globulin and corticosteroid therapy, 43
Transitional cell carcinoma of the renal pelvis, complete response of a, to leucovorin/5 fluorouracil chemotherapy, 244
Transplant patient, renal, cyclosporin A and mefenamic acid in a (Letter), 784
Transplantation, neural, for Parkinson's disease: a critical appraisal, 477
Transplantation, allogeneic bone marrow, from histocompatible sibling donors, chronic myeloid leukaemia treated by – an invariably fatal malignancy rendered highly curable, 408
Transplantation, allogeneic bone marrow, GM-CSF after: accelerated recovery of neutrophils, monocytes and lymphocytes, 686

Transplantation, HLA-identical sibling marrow, for haematological malignancy, a prospective randomised trial of cyclosporin and methotrexate versus cyclosporin, methotrexate and prednisolone for prevention of graft-versus-host disease after, 850
Tuberculosis, multi-drug resistant, in migrants, 457

Ulcerative colitis – what is the risk of developing colorectal cancer?, 71

Vascular mortality in New Zealand, variation in (Letter), 487
Vascular ectasia, gastric antral, 'watermelon stomach', successful treatment of two patients with, using endoscopic Nd-YAG laser therapy, 439
Vasculitis, systemic, autoantibodies in, 433
Vasculopathy, a multisystem, with progressive cerebral infarction: Kohlmeier-Degos disease, 49
Ventricular outflow tract, left, primary leiomyosarcoma of the heart: a rare cause of obstruction of the, 881
Ventricular dysfunction following direct-current shock atrio-ventricular junction ablation, 25
Ventricular dysplasia, arrhythmogenic right, 451
Vincristine infusion in the treatment of immune thrombocytopenia, targeted-immunosuppression with, 405

Warfarin treatment, standardised initial: evaluation of initial treatment response and maintenance dose prediction by randomised trial, and risk factors for an excessive warfarin response, 319
Warfarin action, potentiation of, by miconazole oral gel, 928
Warfarin action by miconazole oral gel, potentiation of, 928
'Watermelon stomach', gastric antral vascular ectasia, successful treatment of two patients with, using endoscopic Nd-YAG laser therapy, 439
Wellington experience 1975-1988, the – diabetic end stage renal failure, 29
Wheat dust-associated respiratory disease in a farming community, 222
Wolff-Parkinson-White syndrome, early and late results of surgery for, 325

XY female athlete with Olympic potential, 242
